

Notice of Construction

24th St – Center Lane Closure

Stange Rd to Hayes Ave

Public Works Department
Engineering Division

515 Clark Ave.
Ames, Iowa 50010

515.239.5160

Ames Public Works

Starting Date: Weather permitting, beginning **Wednesday, June 5th**

The City of Ames has contracted with Con-Struct for the reconstruction of Stange Rd and 24th St. Stange Rd was completed in 2023 while 24th St will be reconstructed in 3 main stages this year. Stage one will be the north lane of 24th. Stage 2 will be the new center turn lane. Stage 3 will be the south lane of 24th St. The final stage will include the 24th St approaches to railroad tracks. The project will also include storm sewer improvements and new sections of shared use path along the south of 24th St. For more project information please visit the project information webpage at www.cityofames.org/stange.

On **Wednesday, June 5th**, the **westbound traffic of 24th St will be shifted to the newly constructed lane** as Con-Struct begins the pavement removal and replacement for the center lane of 24th St from Stange Rd to Hayes Ave. Kent Ave will remain closed at 24th St. The entrance to Ames School admin offices and the adjacent Prairie View East street will remain open for left and right turns. All other entrances on to 24th St will have right turns only through the workzone. Please see the attached map for the workzone location.

Anticipated Duration: Anticipated duration to complete this stage of the project is 4-5 weeks.

Action Required by Residents:

Please use alternate routes if possible. The work zone will have low speeds and narrow lanes. Allow extra travel time as **Delays Will Occur**. Residents with landscaping in the ROW, please remove all plants and objects as they may be damaged or removed by construction operations. All green areas will be restored with the project. Please review the anticipated work zone on back of this notice. This is subject to revisions as necessary but provides an idea of the project location.
